

1. Meeting Management (Nabil)

Main Responsibilities:

- **Setting Up Meetings:**
 - Students can send meeting requests to counselors.
 - Counselors can approve or decline requests.
 - Once approved, the meeting is scheduled.
- **Notifications:**
 - When a meeting request is sent, the counselor gets notified.
 - If approved, the student gets notified with the meeting details.
 - If declined, the student is notified and given the option to reschedule.
- **Displaying Planned Meetings:**
 - Students can see their upcoming meetings.
 - Counselors can view their schedule of student meetings.
 - Meetings are added to a calendar view.

2. Forum & Messaging (Adam Aqil)

Main Responsibilities:

- **Forum for Tech Support & Discussion:**
 - Students and counselors can create posts.
 - Others can reply to posts.
 - Counselors can close posts after resolving issues.
- **Private Messaging (Optional):**
 - Students can send direct messages to counselors.
 - Counselors can reply and track messages.
 - System should notify users of new messages.

3. Login, Logout & User Data (Rohit)

Main Responsibilities:

- **User Authentication:**
 - Handles login and logout for students and counselors.
 - Ensures only authorized users access the system.
- **User Data Management:**
 - Stores user profile information.
 - Ensures data persists across different functions (e.g., meetings, forum).
- **Error Handling & Security:**
 - Shows appropriate error messages on failed login.
 - Implements password recovery.

Alternative to Forum functionality

- **Student Post Creation:**
 - Students create a **private post** when they need guidance.
 - Only the **student and counselors** can see the post at first.
- **Counselor Replies:**
 - Only **counselors** can reply to private posts.
 - The conversation remains **private** unless made public.
- **Public/Private Control:**
 - Counselors can **request permission** from students to make the post public.
 - If approved, the post becomes visible to all students.
- **Public Discussion:**
 - Once a post is public, other students can view and comment.
 - The counselor can **close** posts after resolving them.
